Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jackson (5,476,478).

With respect to claims 1, 8, 14, Jackson discloses a face lifting apparatus comprising a substantially thin hair net (16) which is structured to be snugly seated over a person's scalp in covering relation thereto, which has at least a reinforced seam (30) therebetween, and which has a generally resilient border extending around an outer perimeter (36) of the hair net that is configured to retain the hair net over the person's scalp, and at least one skin retaining element (18) at the resilient border at an end of the reinforced seam to retain skin over a person's face in a lifted position, as set forth in column 2, lines 30-67, column 3, lines 1-17.

It is noted that Jackson did not teach of a device having at least two sections that are secured together; as claimed by applicant. However, it would have been obvious to one having ordinary skill in the art at the time the invention was made to make the face lifting separable, since it has been held that constructing a formerly integral structure in various elements involves only routine skill in the art. *Nerwin v. Erlichman*, 168 USPQ 177, 179.

With respect to claims 2-7, 9-13, 15-19, Jackson teaches all the limitations, as set forth in column 3, lines 35-67, column 4, lines 1-67, column 5, lines 1-29; and as best seen in FIGS. 1-3.

Response to Amendment

Applicant's arguments with respect to claims 1-19 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
